Linguistic Accessibility

A student of the Conseil scolaire acadien provincial is eligible to apply for funding to put towards tuition costs at a Registered Special Education Private School (RSEPS) outside the province of Nova Scotia if the student meets all the standard program eligibility requirements.

A private/independent school outside the province may be registered if they meet requirements as outlined in the Governor in Council Education Act Regulations.

NOVA SCOTIA

Tuition Support Program

The Tuition Support Program provides financial support for families and students who choose to access specialized programming and services at a designated special education private school. The intent of the program is to provide students with a short-term, intensive learning opportunity that will develop specific strategies and skills to help them experience success when they return to their neighbourhood public school or upon graduation.

Program Eligibility

A student is eligible for funding if he or she

- has been formally diagnosed with either a Learning Disability, Attention Deficit/ Hyperactivity Disorder, or Autism Spectrum Disorder
- has been accepted and secured a placement at a designated special education private school—designated special education private schools include Bridgeway Academy, Churchill Academy, and Landmark East School
- has previously studied in a public school in Canada
- has received educational programming and services in a public school setting under an individual program plan (IPP) or the decision has been made through the program planning process to proceed with the development of an IPP

The Tuition Support Program is available to students for three years, with a potential fourth additional year available, in cases where transition outcomes have been identified through the program planning process.

For more information:

Funding Details

All eligible students receive the same base funding for tuition, which is paid directly to the school.

Parents/guardians who need more financial assistance are also able to apply for a supplemental grant. The grant amount is determined on a sliding scale, based on their reported family income during the previous taxation year.
